B1 (Week 1) - Worksheet | Rules and What Happens Next - Predicting Outcomes

Name: _____ **Class:** _____ **Date:** _____

Task 1: Read the rule

Read each rule and write what the machine will do with the card shown.

IF the card is a date, THEN the machine will ...

IF the card is a book, THEN the machine will ...

Task 2: Change one rule and predict

Change the book rule to 'IF book THEN shelf'. Write your prediction for the book card and the date card, and give a rule-based reason for each.

I predict the book card will go to ... because ...

I predict the date card will go to ... because ...

Predict, test, and explain

For three rule changes, write your prediction, run the cards, record the real result, and explain any difference.

Input card	My prediction	Real result	Match or difference	Explain (which rule)

Exit ticket

Write one sentence: How do you know what a rule will do next?

Challenge (stretch)

Try a two-part rule: IF the card is a date AND it is ripe THEN basket. Predict what happens to a ripe date and an unripe date, and explain your reasons.
