B2 (Week 2) - Worksheet | Spot the Mistake - Checking Information

Name: _____ **Class:** _____ **Date:** _____

Task 1: Name the error

Look at each marked entry on the data card and write which kind of error it is: wrong, missing, or duplicate.

Entry 1 is a ... error.

Entry 2 is a ... error.

Entry 3 is a ... error.

Task 2: Write a specific fix

For two errors you found, write the exact correction and a reason using the source list.

Fix 1: It should say ... because ...

Fix 2: It should say ... because ...

Error hunt record

Record each error you find, its kind, your specific fix, and why the fix improves the information.

Row / entry	Kind of error	My specific fix	Why it improves the data

Exit ticket

Write one sentence: How did you know an entry was really an error, and how did you fix it?

Challenge (stretch)

Look at the whole table. Is one answer counted far too many times because of duplicates? Suggest how to make the data fair, and explain your reason.
