B3 (Week 3) - Worksheet | Make It Better - Improving Instructions

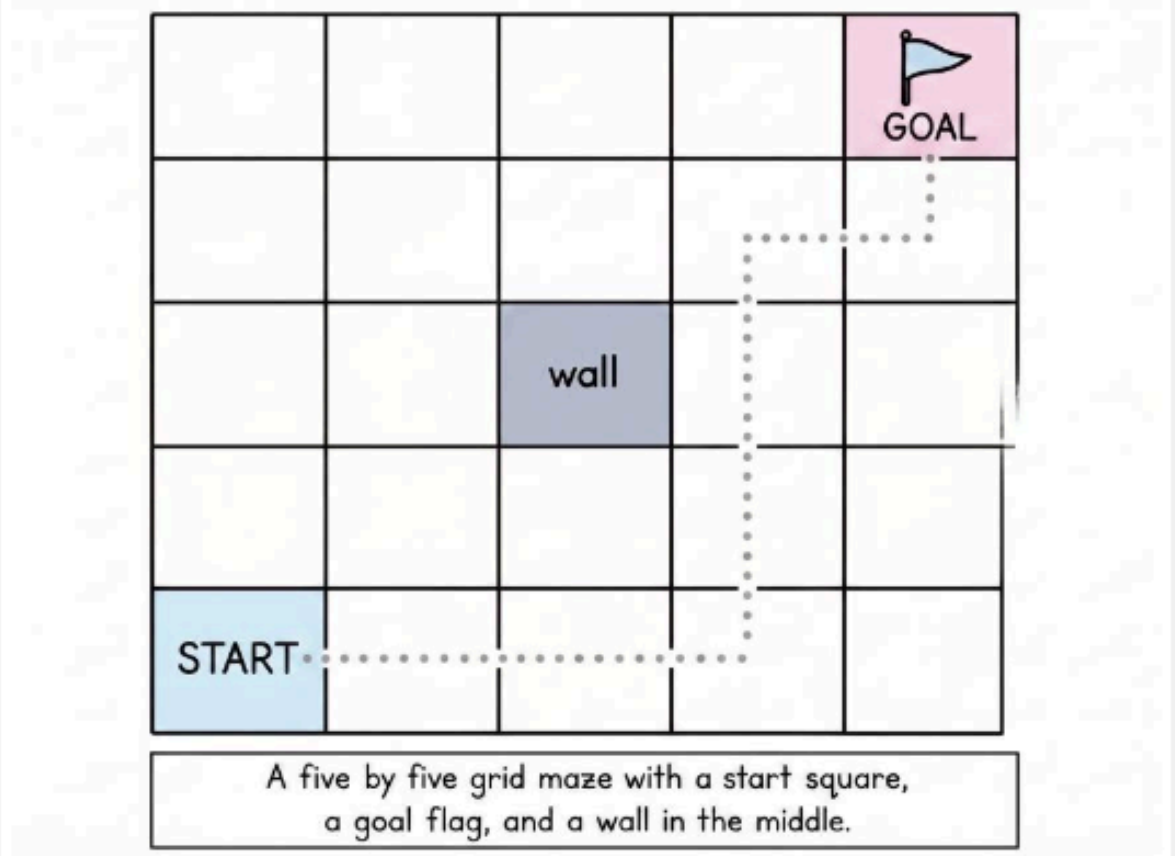

Name: _____ **Class:** _____ **Date:** _____

Task 1 - Spot the faulty step

Read this 5-step sequence for the map. Move your token and circle the first step where it goes off the path. Then write which step number is faulty and what it does wrong.

The faulty step is number ___.

It goes wrong because ___.

A five by five grid maze with a start square, a goal flag, and a wall in the middle.

Task 2 - Fix it and prove it

Revise the faulty step so the token reaches the GOAL. Write the old step and the new step, then re-run and tick the box when it works.

Before (old step): ___

After (new step): ___

I re-ran the steps and the token reached the GOAL: yes / not yet

I changed it because ___.
